

ABDUL WASIH PAYMAN

SOFTWARE ENGINEER, FULL-STACK DEVELOPER

ABOUT ME

I'm a full-stack developer with skills in AI, Machine Learning, Python, Django, Laravel, and React. I enjoy building smart apps and working across both frontend and backend.

JOB EXPERIENCE

AI & FULL-STACK DEVELOPMENT

AI Root Paydayesh Zaman

Develop and optimize AI-powered applications using Python (TensorFlow/PyTorch) for computer vision and NLP solutions
Design scalable backend architectures and RESTful APIs to support machine learning models in production
Implement data processing pipelines for large-scale datasets with focus on performance and accuracy
Paydayesh Zaman)
Full-Stack Web Development & Data Visualization
Designed and developed full-stack web applications for data processing and interactive visual dashboards
Built responsive front-end interfaces using React.js with 30% improvement in user engagement
Optimized SQL/NoSQL databases handling 50K+ daily transactions with 99% query efficiency
Automated deployment pipelines reducing release cycles by 40% through CI/CD implementation

PROJECTS

Inventory System for Afghan-Turk Schools

AI Root Company

Project: How Deep Can Think And How Deep Can Learn

Position: Learning Investigator

Paydaiyesh Zaman Company

Project: Behan System **Position:** Backend Developer

SKILLS

Laravel	AI (Artificial Intelligence)	Machine Learning	Python
MeDeep Learningl	Django MVC	Front & backend	Data Base
React	JavaScript	Restful API	Node.js
SQL	PHP	Oracle	Next.js
Mobile Application		Tailwind CSS	

LANGUAGES ENGLISH PERSION HINDI UZBEKI PASHTO

PROJECTS

Data Structures and Algorithms	Analysis of Algorithms	Problem Solving
Web Technologies	Data Science	Moblie Application
Database
